

School Plan for 2003-2004

1. Enhancement of student proficiency in English, Chinese and Mathematics

Additional teachers will be employed to relieve the workload of the teachers who will have the enhanced capacity to design and teach remedial / extension programs and provide tutorial lessons in English, Chinese and Mathematics, to design and conduct extra-curricular activities to create a language-rich environment and to expose students to competitions in essay writing, verse speaking etc outside of school.

2. School self evaluation

To follow up on the findings of the first stage of the evaluation conducted in 2002/03, the following tasks will be conducted in the coming year:

- i) Perception management and communication to students, parents, alumni and public on the achievement of the students and school
- ii) Using “praises” in creating a more positive culture of learning and teaching
- iii) Creation of an environment and condition to bring about effective learning and enhancement of student learning motivation
- iv) Review and re-design, if necessary, the content and conduct of the form teacher period in order to enhance the effectiveness of life education programme

2. Review of the S4-5 and S6-7 curriculum

A review of the S4-5 and S6-7 curriculum will be conducted in terms of choice of subjects, curriculum time allocation, and deployment of teaching resources in the light of the proposed “Senior Secondary Academic Structure” and split-class teaching allocation policy.

3. Preparation for 30th Anniversary

Preparation for 30th Anniversary of the school (2004/05) will begin with brainstorming sessions to be followed by the formation of a steering committee, under which working committees of each anniversary activities are formed.
